SIDHARTH K

ELECTRONICS AND COMMUNICATION ENGINEER | Kannur, Kerala
+91 9895278292 | sidharthkofficial@gmail.com |linkedin.com/in/sidharthk7352 |github.com/sidharth7352

CAREER OBJECTIVE

Seeking a challenging position in an organization where I can apply my logical thinking, programming skills, and technical knowledge to contribute to organizational objectives while continuously growing professionally and personally.

EDUCATION

APJ Abdul Kalam Technological University | Vimal Jyothi Engineering College – Kannur, Kerala 2019-2023
B. Tech in Electronics and Communication Engineering **67.8 %**

Kerala State Board | Kadambur Higher Secondary School – Kannur, Kerala 2017-2019
Higher Secondary Education in Computer Science **78.58%**

WORK EXPERIENCE

SUPPORT ENGINEER | Vantage Point Security and Surveillance Services LLC, Dubai Feb 2025 – Dec 2025

- Worked as a First-Level Support Engineer for GPS, IVMS, ADAS, and fleet management systems.
- Provided end-to-end technical support, including firmware updates, SIM configuration, and remote diagnostics, while coordinating with field technicians for on-site installations and resolving connectivity, performance, and configuration issues.
- Assisted in device testing and validation through functional checks, firmware flashing, and troubleshooting hardware–software integration issues.
- Configured Teltonika FMC and G-Trackit (GT & MT series) devices, including firmware setup, sensor configuration, CAN data integration, and driver RFID implementation.
- Performed temperature sensor calibration and implemented fuel monitoring solutions using CAN data and ultrasonic sensors for accurate tracking.
- Prepared tracking and compliance reports, supported IVMS certifications (Dubai Government SecurePath and Oman Government OPAL platforms), delivered client training, and assisted with software updates and new product rollouts.
- Collaborated with the R&D team on Driver Fatigue Management Systems, handling configuration, testing, and performance analysis to ensure reliability.

ENGINEER TRAINEE | Keltron Component Complex Ltd, Kannur Nov 2024 – Jan 2025

- Worked as Service In-Charge in the Motor Start and Large Can Capacitor production department.
- Supervised a team of 54 members to ensure smooth production and maintain product quality through regular monitoring and checks.
- Documented daily production output records and handled other operational documentation tasks.

SKILLS SUMMARY

Languages	: C, C++, Embedded C, Data Structures, Python, RTOS
Comm Protocols	: UART, SPI, I2C, CAN
Electronics	: Analog Electronics, Digital Electronics
Familiar Hardware	: ARM7 (LPC2129)
Tools & IDEs	: Keil, VS Code, Arduino, Code Blocks, Proteus, Git
Microsoft Tools	: Word, Excel, PowerPoint, Outlook
Operating Systems	: Windows, Linux
Soft Skills	: Rapport Building, Strong Stakeholder Management, People Management, Dedicated

TRAININGS & PROJECTS

INTRODUCTION TO INTERNET OF THINGS | NPTEL- IIT Kharagpur, Online **|71 %** July 2025 – Oct 2025

- Completed a 12-week IoT training program covering IoT architecture, sensing and actuation, networking basics, communication protocols, sensor networks, and M2M communication.
- Gained practical skills in Arduino programming, Raspberry Pi, Python, and sensor and actuator integration for real-time IoT applications.
- Acquired foundational knowledge of Cloud Computing, Fog Computing, SDN for IoT, Data Analytics.

EMBEDDED SYSTEMS | Vector India Pvt Ltd, Bangalore Nov 2023 – Jul 2024

Main Project: **Employee Attendance System Using RFID**

- Developed an RFID-based system to enhance employee attendance tracking accuracy and efficiency.
- Implemented UART protocol for reliable communication between the RFID reader and LPC2129 Microcontroller.
- Used the I2C protocol to interface the microcontroller with RTC for accurate time logging.
- Used Linux serial port programming to store attendance data on a Linux server, ensuring data persistence and accessibility for analysis.

Mini Projects: Database Acquisition System, Student Record Management System, Home Automation

INTERNSHIP

Optical Fiber Communication | Keltron, Kannur Jan 2021

- Completed a 1-week internship and gained knowledge in optical fiber communication, including OFC structure, fiber classification, key parameters, and splicing techniques.
- Acquired hands-on experience in operating fiber splicing machines and performing splicing techniques.

ACADEMIC PROJECTS

B. Tech, KTU (Main Project) Nov 2022- May 2023

Automated Power Supply Changeover Switch for On Grid Domestic Solar Plant.

- This project aims to design and implement an Automated Power supply changeover switch for on-grid domestic solar plants.
- This is a device that safely bypasses electric current to the usage area without the risk of return current through the transmission line.
- The system consists of an IC based relay switching system that continuously monitors the availability of grid power and the solar power

BOOTCAMPS & WORKSHOPS

- **ESD ARM CORTEX |** Pantech Solutions Pvt Ltd (Online) Sep 2023 – Oct 2023
- **National Workshop on Internet of Things |** Innovians Technologies Oct 2019 (2 Days)

ACHIEVEMENTS / ACTIVITIES

- Participated in the annual national-level Techfest **Tantra '22** held on Dec 05, 2022 as a **sub-coordinator**.
- Participated in the event **Idea Explore** conducted on June 06, 2021, on behalf of the Techfest **TECHNOPHILE**.
